CLARIN, CLARIN-PL: resources & tools (2)

CLARIN-PL first time in Poznań. Invitation :)

1 March 2018 - Dr Danijel Koržinek - an open lecture about
CLARIN-PL speech tools

12-13 April 2018 - **CLARIN-PL workshops & tutorials** -
various CLARIN-PL tools - hands-on experiences.

*** Room 104 Coll. Novum ****

CLARIN-PL tools. Assignment

Describe one of the CLARIN-PL tools or a package of tools. In your description please include the following elements:

- a) a brief summary of the tool's functionality;
- b) a brief user experience information: have you used this or other similar tool before? When? For what purposes?
- c) an example usage report: please use the selected tool /resource for a purpose defined by yourself and comment on the results;
- d) evaluation of the tool's interface: is it sufficiently documented? Is it easy to use? What kind of improvements would you recommend?

Send your report by e-mail to the teacher's address.

CLARIN-PL – speech corpus tools overview

CLARIN-PL – speech corpus tools exercises

1. Test the G2Modules for 5 separate word items and then for a wordlist including the same items. Then comment on the results.
2. Test the RECO component using a short recording of either your own voice or a sample crawled from the internet.
3. Test the ALIGN components (choose *a* or *b*)
 - a. With any short recording (forced)
 - b. With the recording Yes_day from your Annotation Practice assignment lub inne nagranie dłuższe niż pojedynczy wyraz, fraza
4. Write a brief summary of your observations, include the examples that you used for testing. Send the report to the teacher by e-mail.

Editing waveforms (crop) also in the test version of Annotation Pro [here](#)
